H&R BLOCK REPORTS RECORD ANNUAL REVENUES AND EARNINGS

Company Announces Dividend and Share Repurchases Authorization Increases

FOR RELEASE JUNE 9, 2004 4 P.M. EDT

KANSAS CITY, Mo. — H&R Block Inc. (NYSE: HRB) today reported record revenues and net income for both its fourth quarter and fiscal year ended April 30.

Fourth quarter revenues totaled \$2.2 billion, a 14.8 percent increase over the fourth quarter last year. Consolidated net income for the quarter increased 16.4 percent to \$575.6 million. Fourth quarter earnings per diluted share increased 19.2 percent to \$3.23.

Fiscal year revenues increased 12.3 percent to \$4.2 billion. Consolidated net income for the fiscal year increased 20.3 percent to \$697.9 million. Earnings per diluted share increased 23.8 percent to \$3.90, excluding a change in accounting principle. After the change in accounting principle, earnings per share increased 22.5 percent to \$3.86. The company adopted Emerging Issues Task Force No. 00-21 (EITF 00-21) in its second quarter.

"Fourth quarter results completed a year that saw record revenues, record earnings and balanced growth from our mix of businesses," said H&R Block Chairman and Chief Executive Officer Mark A. Ernst. "We experienced improved results across all business lines in our fourth quarter.

"H&R Block's combined annual growth rate for earnings per share has increased 29 percent in the past five years. Our mix of businesses has generated solid results, even in challenging business environments," Ernst said.

H&R Block began to expense the costs of all stock-based compensation at the beginning of fiscal year 2004. The fiscal year results include \$25.7 million, or 9 cents per diluted share, in stock-based compensation expense, compared with \$2.1 million last year.

Fiscal 2005 Outlook

"Next year, we expect earnings per share in the range of \$4.00 to \$4.25 per share. We expect solid growth in our mix of businesses. We continue to believe that, over the long-term, the company's mix of businesses can generate earnings consistent with our long-term guidance of earnings per share growth in the range of 13 to 18 percent per year," Ernst said.

"A changing interest rate environment will likely result in a flattening or slight decline in mortgage earnings, which will partially offset solid earnings growth in our other businesses," he said.

Board Actions

Reflecting the company's strong financial condition and continuing performance, H&R Block's board of directors approved an increase of the quarterly cash dividend from 20 cents to 22 cents per share, a ten percent increase, effective with the quarterly dividend payment on Oct. 1, 2004 to shareholders of record on Sept. 10, 2004. This payment will be the company's 168th consecutive quarterly dividend.

Also, the board authorized the company to repurchase up to 15 million of its shares, in addition to the 11.3 million shares remaining at year end on its previous repurchase authorization from June 11, 2003.

"In the past year, the company has returned significant value to shareholders by repurchasing \$518.5 million, or 10.6 million, of its shares," Ernst said. "The new repurchase authorization reflects the confidence that the board of directors has in H&R Block's future. Given our strong cash position, share repurchase continues to be a great way for us to enhance shareholder value."

During the fourth quarter, the company repurchased 2.8 million shares at an average cost of \$52.77 per share.

U.S. Tax Operations

For the fiscal year, U.S. tax operations reported pretax income of \$627.6 million, an increase of 14.7 percent from pretax income of \$547.1 million in fiscal 2003.

U.S. tax operations reported a 3.2 percent increase in fourth quarter pretax income, which totaled \$783.5 million, up from \$759.3 million in the fourth quarter of fiscal 2003.

The segment's revenues for the year increased 12.5 percent to \$2.1 billion. The increase was driven by an 8 percent increase in the average fee per client served, the acquisition of former major franchise territories during fiscal year 2004, and a change from last year's contractual agreement with Household Taxmasters Inc. that resulted in increased revenues from refund anticipation loan (RAL) participation.

The segment reported \$1.5 billion in revenues for the fourth quarter, an increase of 10.1 percent compared with last year's fourth quarter.

"We improved client satisfaction with our combination of financial information and tax services, which is a unique value of the H&R Block brand. And we made solid progress with our multi-channel strategy. The number of software and online clients increased 12.2 percent to 3.2 million, with the fastest growth in tax solutions that blend the services of a tax professional with software and online products," Ernst said.

"While we're disappointed in the 0.8 percent decline in clients served, we understand the factors behind the decline and are taking steps to strengthen our market position. We will open 500 to 600 new offices in underserved areas where we could not provide the convenience clients wanted. And we are reviewing our marketing plans to identify the best mix of messages, products and services to drive client growth in the early part of tax season."

Mortgage Operations

Mortgage operations, which includes Option One Mortgage Corp. and H&R Block Mortgage Corp., reported fourth quarter pretax income of \$175.9 million, a 34.4 percent increase, compared with \$130.9 million in the fourth quarter last year.

For fiscal 2004, the mortgage segment reported pretax income of \$678.3 million, a 2.3 percent decrease compared with \$694.0 million in pretax income in fiscal 2003.

Fourth quarter revenues grew 28.4 percent to \$344.3 million, up from \$268.3 million the prior year. Fiscal 2004 revenues increased 10 percent to \$1.3 billion, up from \$1.2 billion in fiscal 2003.

For fiscal 2004, gains on sales of mortgage loans increased 8 percent to \$716.7 million, compared with \$663.6 million in fiscal 2003. In fiscal year 2003, the company reported a \$130.9 million gain on the sale of previously securitized residual interests, compared to \$40.7 million in the current year. Net of \$30.7 million in impairments of older residuals, compared with \$54.1 million in 2003, the mortgage segment's total gains on sales were \$726.7 million for fiscal 2004, compared to \$740.3 million in the prior year.

Loan production increased to \$23.3 billion in fiscal 2004, a 40.3 percent increase over the previous year. An increase in the number of loan specialists, improvements in the company's closing ratio, and a 4.9 percent increase in the average loan size all contributed to this growth.

Included within these results, H&R Block Mortgage Corp., H&R Block's retail mortgage subsidiary, originated 6.4 percent more loans, 48.9 percent of which were made to retail clients of other H&R Block businesses.

"The mortgage business performed as we expected it would. We saw continued growth in mortgage originations and lower margins due to the anticipated increase in interest rates," Ernst said.

"Originations have been strong across all of our origination channels, and loan performance has exceeded modeled expectations. We continue to manage our mortgage business to optimize cash earnings, and we remain confident that mortgage operations will continue to perform well," he said.

Option One's mortgage servicing business increased the number of loans serviced 31.6 percent to 324,364. The servicing portfolio at year-end increased 44.7 percent to \$45.3 billion, compared with last year's portfolio.

The segment's residual interests continued to perform better than expected, primarily due to better than modeled credit losses and interest rates. Consequently, the company realized a net write-up to residual balances of \$167.1 million during fiscal year 2004, including \$67.1 million in the fourth quarter, which was recorded in other comprehensive income on the balance sheet, net of deferred taxes.

Business Services

RSM McGladrey Business Services, Inc. reported fourth quarter pretax earnings of \$26.8 million, compared with a net loss of \$1.9 million in the same quarter last year. For fiscal 2004, the segment reported pretax earnings of \$19.3 million, compared with a net loss of \$14.1 million in 2003.

In the fourth quarter, the business services segment reported revenues of \$179.4 million, an increase of 28 percent. For the fiscal year, revenues increased 15 percent to \$499.2 million.

"We are beginning to realize the potential that exists in this business segment. Our capital markets business enjoyed a strong year, and an improving economic environment for our middle market clients resulted in higher revenues in our core accounting and tax services," Ernst said.

Fiscal year 2003 includes a goodwill impairment charge of \$11.8 million related to the segment's payroll and benefits processing company. The segment wrote off \$576,000 in intangible assets in the fourth quarter of 2004.

Investment Services

Investment services reported a fourth quarter pretax loss of \$22.5 million, an improvement of \$13.3 million from a fourth quarter loss last year of \$35.8 million. For the fiscal year, investment services recorded a pretax loss of \$64.4 million, an improvement of \$63.8 million compared with a loss of \$128.3 million in fiscal 2003. Fiscal year 2003 results include \$24 million of goodwill impairment charges.

Investment services reported fourth quarter revenues of \$62 million, a 40.8 percent increase from the same quarter last year. Revenues for the fiscal year increased 14.3 percent to \$229.5 million.

"We see continued improvement in H&R Block Financial Advisors' results. We believe that this business has been restructured in a way that allows us to compete effectively as the investment climate improves," Ernst said.

"The retention and recruitment of experienced advisors continues to be a key initiative in the upcoming year, along with building stronger links between financial advisors and tax professionals in our U.S. tax operations."
