H&R BLOCK ANNOUNCES FISCAL 2007 SECOND QUARTER RESULTS

Tax Services Prepared for Solid Upcoming Season Weakness in Mortgage Industry Drives Larger Loss

FOR RELEASE Nov. 30, 2006 4:00 p.m. EST

KANSAS CITY, Mo. – H&R Block Inc. (NYSE: HRB) today reported a net loss of \$156.5 million, or 49 cents per basic and diluted share, for the fiscal 2007 second quarter ended Oct. 31, compared with a loss of \$81.2 million, or 25 cents per share, in the year-ago quarter. Due to the seasonality of its Tax Services business segment, the company normally reports an operating loss for its fiscal first and second quarters. Revenues in the quarter were \$563.2 million versus \$605.0 million in the prior-year period.

"Our largest business, Tax Services, performed in line with expectations. Pre-season results in November were encouraging, and we believe H&R Block is solidly positioned for a successful tax season," said Mark A. Ernst, chairman and chief executive officer. "In Business Services, RSM McGladrey reported strong top-line revenue growth, and Consumer Financial Services moved closer to our profitability targets.

"The issue for us in the second quarter was ongoing weakness in the mortgage industry," Ernst continued. Option One Mortgage was affected by the industrywide trend of reduced origination volumes, reduced gain on sale margins and increased provisions for loan losses.

"As we consider strategic alternatives for Option One, we remain focused on maintaining its position as a leading non-prime originator," Ernst said, citing a recently announced restructuring to further align capacity and costs with lower volumes. H&R Block announced Nov. 6 that it was evaluating strategic alternatives for Option One, including sale or a public market transaction.

"We expect to determine our course of action during the first quarter of calendar 2007," Ernst said.

For the six months ended Oct. 31, 2006, H&R Block reported a net loss of \$287.8 million, or 89 cents per share, compared with a loss of \$109.2 million, or 33 cents per share, for the same period of fiscal 2006. Six-month revenues were \$1.1 billion in fiscal 2007 versus \$1.2 billion last year.

Tax Services

Second quarter 2007 revenues edged up 2 percent to \$82.1 million from \$80.8 million in the prior-year period. A pretax loss of \$167.4 million in the fiscal 2007 quarter compared with a \$142.9 million loss posted last year, and was primarily due to added costs associated with offices that opened early in November, initiatives to ensure systemwide operational readiness for the upcoming tax season, and the incremental off-season costs of a larger number of offices. The company's office network is on track to grow by 300 to 400 locations for the coming tax season to about 12,500 across the United States, after adding approximately 1,000 offices in fiscal 2006.

"We are pleased with the execution of our strategy to open some offices earlier and with the success of our pre-tax season loan product," Ernst said. In early November, H&R Block announced plans to strengthen its competitive leadership in the early season by offering an Instant Money Advance Loan that can save clients up to 50 percent on fees versus competitive offerings and can link with a low-cost bank account.

For the first six months of fiscal 2007, revenues of \$148.1 million were up 7 percent from \$138.0 million last year. The pretax loss of \$320.6 million compares with a loss of \$287.4 million in the year-ago period.

Mortgage Services

Mortgage Services revenues decreased to \$140.6 million in the fiscal 2007 second quarter from \$235.8 million last year. The decrease was driven by lower originations and by a decrease in gains on sale due to lower than expected loan sale premiums and higher provisions for loan losses. The business posted a pretax loss of \$39.0 million versus pretax income of \$48.8 million a year ago.

Non-prime loan origination volume was \$6.6 billion versus a record \$12.2 billion in the year-ago quarter and \$7.8 billion in the first quarter of fiscal 2007, as softness in the U.S. housing market and tightened loan underwriting continued to suppress loan volume.

Net gain on sale-gross margin for Mortgage Services was 37 basis points compared with 81 basis points in the fiscal year's first quarter, reflecting losses on derivatives and lower loan sale premiums.

Loan loss provisions totaled 69 basis points in the second quarter due to continued high default rates and greater loss severity. As a result of changes in loss severity estimates, the second quarter provision includes approximately 19 basis points related to production in prior periods.

"We believe changes we've made to our operations, products and pricing will improve loan performance and profitability as underwriting changes make their way through our loan pipeline," Ernst stated.

Non-prime loan origination costs were 1.59 percent of origination volume in the second quarter of 2007 versus 1.41 percent in the year's first quarter and 1.29 percent a year ago, reflecting declines in origination volumes without a fully corresponding ability to reduce fixed costs.

"We should see benefits in the future from our work to implement further improvements in the origination process along with staffing and technology changes," Ernst added.

Option One's mortgage servicing portfolio was \$73.0 billion at the end of the quarter, down approximately \$2 billion from the first quarter of fiscal 2007. Compared with the first quarter, servicing revenue rose to \$113.7 million from \$109.0 million, while pretax income declined 2 percent to \$20.7 million.

The company incurred \$12.2 million in residual asset impairments, which were recorded as a reduction in gains on sale of mortgage assets in the income statement. The company also realized a net write-up to residuals of \$7.6 million in the second quarter, which was recorded in other comprehensive income, net of deferred taxes.

For the first six months of fiscal 2007, revenues decreased to \$310.3 million from \$540.8 million in the prior year period, and a pretax loss of \$44.0 million compared with pretax income of \$179.5 million last year.

Business Services

Business Services revenues rose 37 percent to \$229.1 million in the 2007 second quarter from \$166.8 million a year earlier. The majority of the increase was due to the addition of American Express Tax and Business Services (Amex TBS), which was acquired effective Oct. 1, 2005. RSM McGladrey's legacy tax, accounting and consulting operations also achieved solid double-digit growth.

The segment's pretax loss of \$18.7 million versus \$2.1 million a year ago primarily reflects higher off-season costs associated with the addition of Amex TBS, incremental spending to build brand awareness, and higher losses in certain of its extended businesses.

Six-month segment revenues were \$434.2 million, up 48 percent from \$293.7 million in last year's period. The fiscal year-to-date pretax loss was \$33.3 million versus a loss of \$8.9 million in the prior year period.

Consumer Financial Services

Consumer Financial Services became a new segment effective May 1, 2006, and comprises H&R Block Financial Advisors, H&R Block Mortgage and H&R Block Bank (which began operations May 1). Second quarter revenues for the segment were

\$112.4 million versus \$121.7 million last year, while the pretax loss decreased to \$6.6 million from \$10.5 million last year.

"Our new segment is moving toward profitability," Ernst said. "The financial advisory and retail mortgage businesses will continue to build on strong relationships with our tax professionals to provide clients with integrated financial advice and products, and we're excited about the opportunities our new bank brings."

H&R Block Financial Advisors again improved its results over prior year. Financial advisor productivity rose 4 percent over last year's quarter. The company continued to be successful in recruiting top producers in a highly competitive market.

H&R Block Mortgage Corp. originated \$769.3 million in loans during the second quarter, selling \$471.2 million of non-prime loans to Option One and the remaining prime production to a third party.

Total assets for H&R Block Bank grew to \$762.1 million at the end of the second quarter from \$566.8 million three months earlier. "The Bank continues to build its deposit base and the investment side of its balance sheet, moving its performance metrics closer to planned levels for its initial year of operation," Ernst said.

For the first six months of fiscal 2007, segment revenues were \$220.7 million versus \$246.1 million, and pretax loss was \$14.4 million versus \$14.2 million last year.

Dividend Approved

H&R Block's board of directors yesterday approved a quarterly cash dividend of 13.5 cents per share, payable Jan. 2, 2007, to shareholders of record Dec. 12, 2006. The payment will be the company's 177th consecutive quarterly dividend.

Other

Intersegment activities, which primarily involve sales of mortgage loans from Option One to H&R Block Bank, and from H&R Block Mortgage to Option One, are included in segment results but eliminated in consolidation. Intersegment gains of \$4.1 million for the quarter and \$14.4 million for the sixmonth period on loan sales from Option One to H&R Block Bank were eliminated in consolidation.

During the six months, the company reacquired 8.4 million shares of its common stock at a total cost of \$186.6 million, or an average purchase price of \$22.26 per share.

The company continues to expect fiscal 2007 earnings to be \$1.20 to \$1.45 per share, a lowered range announced Nov. 6 reflecting less favorable conditions in the mortgage market. The volatility within the earnings range will continue to be a function of the changing mortgage market and the company's ability to effectively manage its mortgage business under those conditions during its assessment of strategic alternatives for Option One.

Forward Looking Statement

The information contained in this press release may contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. Such statements are based upon current information and management's expectations regarding the company, speak only as of the date on which they are made, are not guarantees of future performance, and involve certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in such forward-looking statements.

Such differences could be caused by a number of factors including, but not limited to, the uncertainty of the entry by the company into an agreement regarding any sale or public market alternative involving the separation of Option One Mortgage Corp.; the uncertainty regarding the completion of any such transaction; the uncertainty that the company will achieve or exceed its revenue, earnings, and earnings-per-share growth goals or expectations for fiscal year 2007; the uncertainty of the company's ability to purchase shares of its common stock pursuant to the board of directors' authorization; the uncertainty of the impact and effect of changes in the non-prime mortgage market, including changes in interest rates, loan origination volume and levels of early payment defaults and resulting loan repurchases; changes in the company's effective income tax rate; litigation involving the company and its subsidiaries; changes in management and strategies; and risks described from time to time in reports and statements filed by the company and its subsidiaries with the Securities and Exchange Commission.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Basic earnings per share is based on the weighted average number of shares outstanding. The dilutive effect of potential common shares is included in diluted earnings per share except in those periods with a loss.

Certain reclassifications have been made to prior year amounts to conform to the current period presentation. These reclassifications had no effect on the consolidated results of operations or stockholders' equity as previously reported.

In March 2006, the Office of Thrift Supervision approved the charter of H&R Block Bank. The bank commenced operations on May 1, 2006, at which time we realigned our segments to reflect a new management reporting structure. The previously reported Investment Services segment, H&R Block Mortgage Corporation (which was previously included in the Mortgage Services segment), and H&R Block Bank are now being reported in the Consumer Financial Services segment.
